Mr. Speaker, I had the pleasure of getting to know Colonel Lloyd during his tenure as commander of the Pittsburgh District, and he is a true public servant. He oversaw the Task Force Power Restoration effort in Puerto Rico after Hurricanes Irma and Maria tore through in 2017. He mobilized and deployed a specialized team of Army Corps personnel to rebuild the island's electrical system of power generation, transmission, and distribution.

Colonel Lloyd's team worked with FEMA, the Department of Energy, the power industry, Puerto Rico Electric Power Authority, and other stakeholders to restore more than 85 percent of Puerto Rico's prestorm power grid within 5 months. He displayed truly remarkable leadership.

Colonel Lloyd also took the time to travel to my district to meet with the Punxsutawney Borough Council to discuss modifications for its levees.

His expertise is second to none, and we have been fortunate enough to have Colonel Lloyd at the helm in the Pittsburgh District.

Prior to his assignment in Pittsburgh, Colonel Lloyd served in a variety of engineer command and leadership positions, including battalion commander of the 19th Engineer Battalion at Fort Knox, Kentucky. Before that, he served as the Army fellow assigned to the Asia-Pacific Center for Security Studies in Honolulu, Hawaii.

## □ 1015

Colonel Lloyd is a man with numerous military awards and decorations, and the accolades surely do match his commitment and dedication to his job.

I wish Colonel Lloyd the best as he departs the Pittsburgh District for his next assignment. He has done an outstanding job for the citizens of northwestern Pennsylvania, and it has been an honor and a privilege to get to know this fine individual over the past 2 years.

## $\begin{array}{c} {\tt NATIONAL} \ \ {\tt ORCA} \ \ {\tt PROTECTION} \\ {\tt MONTH} \end{array}$

The SPEAKER pro tempore. The Chair recognizes the gentleman from Washington (Mr. HECK) for 5 minutes.

Mr. HECK. Mr. Speaker, 2 weeks ago we reached another troublesome milestone for Puget Sound's magnificent, but endangered, orca population.

We lost yet another southern resident orca, this time a 23-year-old male known as L-92. This is the third death just in the past year, and the sixth in the past 2 years.

There are now just 75 southern resident orcas left, the lowest number in 34 years. In fact, that is 13 fewer whales than when the population was initially listed in 2005 under the Endangered Species Act.

I am sad about this loss and frustrated about this loss. Indeed, I am beyond frustrated. I am beyond frustrated because we know what needs to be done to save this iconic species in

the Pacific Northwest. But, quite frankly, the Federal Government isn't living up to its partnership responsibility.

Back home in Washington State, the State government and local partners are stepping up. Governor Inslee earlier this year created the Southern Resident Orca Task Force, and he charged two terrific public servants, my friends, Stephanie Solien and Les Purce, with leading it. But these partners can't do it alone; nor should they.

We all have to fully invest in the Puget Sound in orca recovery programs. Mr. Speaker, I remind you Puget Sound is the largest estuary in the United States of America.

The good news is we know where our efforts need to go. Eighty percent of the southern resident orcas' diet is Chinook salmon, and these salmon populations are in just as much danger of extinction as our orcas. Most of those salmon are gone. They are being eaten by sea lions and seals; and where they swim in Puget Sound it is simply too polluted.

The pollution killing them is from storm water runoff—toxic metals, chemicals, and oils. It kills literally in a matter of hours, and we have the film to prove it. Storm water runoff remains the largest source of pollution in Puget Sound, and we cannot save our beloved orcas and our salmon if we do not stop that. Period.

So we will fight for funding to tackle these problems. But I also believe we have to raise awareness. That is why last week I introduced H. Res. 959, which would designate June 2018 as National Orca Protection Month. In Washington State, we gather every June to celebrate our southern resident orcas. We join Native American Tribes who have always recognized and honored the spiritual and cultural significance of that which they call the Blackfish.

But as the orca population has declined, these celebrations have turned into calls for action. National Orca Protection Month serves as a reminder of work that requires a year-round focus. It is vital that the Federal Government play its vital partnership role.

So, Mr. Speaker, I ask Members to please support this resolution to designate National Orca Protection Month. Let's give our Federal agencies the resources they need to prevent the extinction of this beautiful and magnificent species and ensure that orcas survive for generations yet to come.

## PREVENTING INTERNATIONAL PARENTAL CHILD ABDUCTIONS

The SPEAKER pro tempore. The Chair recognizes the gentlewoman from California (Mrs. MIMI WALTERS) for 5 minutes.

Mrs. MIMI WALTERS of California. Mr. Speaker, I rise today to share the heartbreaking story of an Orange County father named Randy Collins. On March 3, 2003, Randy and his wife welcomed their son, Keisuke, to the world.

Following their divorce, Randy became concerned that his ex-wife would flee with their son to her home country, Japan. The California court system agreed and granted a temporary retraining order on foreign travel for their son. Unfortunately, this did not prevent the abduction from taking place.

I first met Randy during my time in the California State Senate when we worked together on legislation to prevent future international parental child abductions. I am proud the bill, named Keisuke's Law in honor of Randy's son, passed the State legislature unanimously and was signed into law on September 7, 2012.

This month marks 12 years since Randy, a loving and devoted father, last saw his son. Japan continues to have one of the worst records in returning abducted children like Keisuke to the United States.

Mr. Speaker, as the mother of four, I can only imagine the pain that Randy must feel missing each passing milestone of his son's life. This is a grave injustice, and I will continue to support Randy and all families whose children have been wrongfully abducted.

## REMEMBERING DUNCAN GIGERICH

Mrs. MIMI WALTERS of California. Mr. Speaker, I rise today in memory of Duncan Gigerich whose life was tragically cut short on June 9, 2018.

Duncan was only 19 years old at the time he passed away, yet he demonstrated maturity well beyond his years. As a high school football player, Duncan demonstrated leadership skills both on and off the field. Duncan just returned from a semester abroad in New Zealand where he studied the country's natural history and culture while learning invaluable outdoor leadership and survival skills. He was undoubtedly full of life and eager to embark on each new adventure before him.

Mr. Speaker, I offer my sincerest condolences to the Gigerich and Dirk families and to all those who were fortunate enough to know Duncan. His memory will live on through the many friends, family, and places that experienced Duncan's loving spirit and immense appreciation for the outdoors.

May he rest in peace.

CONGRATULATING DEPUTY CHIEF GARAVEN ON HIS RETIREMENT

Mrs. MIMI WALTERS of California. Mr. Speaker, I rise today in honor of Paul Garaven on his retirement from the Tustin Police Department.

Deputy Chief Garaven has served over 30 years at the Tustin Police Department beginning in 1987 as a parttime volunteer reservist. Since then, he has held numerous positions within the department, including time spent undercover with the special investigations unit.

No matter the title Deputy Chief Garaven held, he devoted every day of his career to making the city of Tustin
